COLO TELEPHONE COMPANY CALLING FEATURES:

Adding Calling Features to your service can make your telephone time more efficient and effective. Following is a list of Calling Features currently available. 3 features FREE with your telephone service. Add more for a low monthly fee.

Anonymous Call Rejection: Allows a Customer of Caller Identification (Caller ID) to reject calls for which calling name/number display information has been intentionally blocked.

Automatic Call Back: Automatically redials the last number a customer dials. If the called party's number is busy, a special tone will alert the customer when the called number becomes idle.

Call Forwarding Basic: Permits a customer to transfer all incoming calls to another dial able telephone number.

Call Forwarding Busy Line: Incoming calls may be forwarded to another number when the called number is busy.

Call Forward Don't Answer: Incoming calls may be forwarded to another number if the customer does not answer after a preset number of rings.

Call Waiting: Current call may be put on hold so that a second call may be answered.

Call Waiting Deactivation: Call Waiting feature may be deactivated for the duration of a call.

Caller ID Blocking Per Call: Enables the customer to control the disclosure of their telephone number or name and telephone number to a subscriber of Caller ID.

Caller ID Blocking/Line: Provides a permanent private indicator on a customer's line.

Caller ID Name/Number: Automatic delivery of a calling party's telephone name and/or number to the called customer on customer provided equipment.

Caller ID/Call Waiting: Allows the customer to receive calling number and/or name information about the call waiting party.

Distinctive Ringing: Provides a distinctive ringing code on incoming calls, using one individual access line.

Redial: Allows the customer to dial an access code to redial the last telephone number called.

Selective Call Acceptance: Allows customers to define a list of calling numbers from which calls will be accepted. Numbers not on the list will receive an announcement stating that the call is not presently being accepted.

Selective Call Forwarding: Customer may specify a special list of telephone numbers. Incoming calls placed to the customer from that list will automatically be forwarded to a predefined number. Other calls will be handled normally.

Selective Call Rejection: Customer may reject calls from a list of calling parties.

Three Way Calling: Customer may add a third party to an existing call without operator assistance.

Toll Block w/PIN Override: Customer may restrict long distance calling by having to use a PIN number to place all long distance calls.
